OLD CONCORD, MASS., is rich in historical and literary associations. It has many points of interest for the observing automobile tourist. And you will find it convenient there to replenish your supply of Socony gasoline. Socony stations are located at frequent intervals along the roads of eastern Massachusetts—and in western Connecticut or northern New York State!

Socony is the quality motor fuel. The methods used in refining it are the result of a comprehensive experience, extending from the infancy of the in-dustry to the present day. New processes have been developed from time to time in well-equipped research laboratories. Every known method is used to produce the cleanest, most powerful gasoline that can be made.

Socony is first and foremost a dependable gasoline. Its low boiling-point insures easy starting, complete combustion and full power and mileage at all times wherever you buy it. Begin using Socony regularly—for all-year economy.

Look for the red, white and blue Socony sign.

Clipping,

The extracts below are taken from an article in the Boston Post of September 5 in regard to Prof. Leo Wien. er of Chicoper row, who bought the Breekinridge farm last spring, and relate to some of the opinions expressed in Prof. Wiener's new book, "Africa and the discovery of America'

It is a daring act to upset in one declaration the story of the early history of America. That Columbus, with the possible exception of some errant Norseman, was the first non-American to land on the continent, had a long shore ride.

Arthur Tuttle discovered last Satur- that the Indians taught the colonists day that a pair of steers were missing of the trip days the use of tobacco from his pasture. After making several inquiries he finally traced them, with the ald of Constable J. C. Shatuninfluenced Indian life, are lessons had been caried on a truck. On Mon-day hight they were brought back, but not in good condition, as one of them had a broken horn. A veterinary was historians, paleontologists, archeolocalled, who worked over the animal gists, have in general agreed. But now for some time, but as neither of the comes Prof. Leo Wiener of the de steers is in good condition, Mr. Tuttle partment of Slavic languages, Harvard University, one of the country's most noted philologists, to make the daring declaration. Prof. Wiener is a man of wide and

profound knowledge. Besides being the professor of Slavic languages and iterature at Harvard University, he is the author of "A commentary to the Germanic laws and medieval documents," "Contributions toward a history of Arabico-Gothic culture," "History of Yiddish literature," "History Prof. and Mrs. Leo Wiener leave of the contemporary Russian drama." "Anthology of Russian literature," "Interpretation of the Russian people, He is an authority on and translator of Tolstoi, and a contributor to German, Russian, French, English and American periodicals. You may surmise that the professor is not a man to jump at conclusions. Each statement he makes, whether in conversa-tion or in his book, he backs up with a multitude of evidence, mostly philological, and altogether beyond the immediate understanding of the lay man. He turns to his book, talking all the while, and supplementing his conversation with many and enthusiastic

gestures. He reads: "Negroes from Guinea and the Congo came to America not earlier than the 12th century and before the 15th. These Negroes profoundly influenced the civilization of the American In-dian. My study of documents and language have showed me conclusively that this is so. I have found that some of the journals and letters of Columbus Clipping. are literary frauds. They are filled with horrible lies, for which I do not blame the uneducated Columbus so much as the cheats with whom he was ssociated. My studies of the derivations of many words, the names of to-bacco, of yams, of sweet potatoes and spected to be a guest at the fair this others have shown me that they are undeniably of an African origin.

"That the African Negro, mostly Mandingoes, had an enormous influence on the civilization of the American Indian and early America is not simply a theory. It is founded on the facts of linguistic, botanic, desumentary and historical evidence. There is the Indian medicine man for instance. I have found that his Indian name of office and his art were to a great extent of African origin. The toburgo pipe, 1 am assured, began its cone, as a Mandingo amulet. FOR SAL

In order to settle the estate of the late Frederick Whitney, I offer for sale his beautiful home situated on the corner of Washington and Williams Streets, Ayer. The estate consists of 3-8 of an acre of land and a twelve-room house arranged for two tenements with hot water heat, bath-room, and electric lights in both tenements. Cellar under the whole house, all cemented, in fact, as near a perfect house as can be built, also a barn connected with the house, which is all finished in hard pine. This house was built by Mr. Whitney and has been occupied by him up to the present time.

This is the most interesting piece of property that I have ever offered for sale in the town of Ayer and will be sold for less than 50% of its replacement value. Will show at any time by appointment.

ELECTRIC VACUUM CLEANER

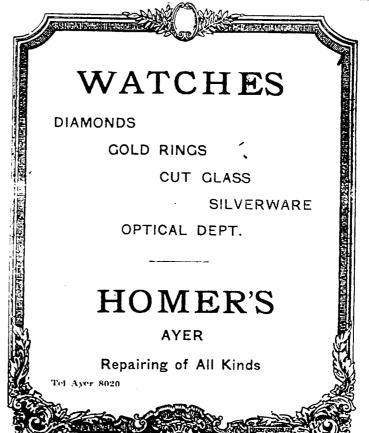

The Eureka is an Air Cleaner. It depends for its truly remarkable efficiency upon the great volume of air that rushes through the nozzle, and the velocity at which this air travels.

The brush with which it is equipped simply gathers up the surface dirt, the threads and hair. The air rushing though the fabric gets the dirt embedded in the carpet—the deep down dirt that brooms and carpet sweepers cannot reach and carpet sweepers cannot reach.

Health is at the foundation of human happiness. Through its Rural Service, Public Health Nursing Service and Health Center Service, the American Red Cross alms greatly to strengthen this foundation and to draw more closely than ever the neighboriy ties that bind the American people together. Here is shown a Red Cross Public Health nurse attending a young mother with a brand new baby, seeing that both receive scientific care.

Americans who contribute to the Red Cross would feel amply repaid for their generosity if they could see what it means to hundreds of thousands of war weary sufferers in the Balkans. Here is a widowed Roumanian mother with her five children just after a visit to a Red Cross relief station. All are barefoot and the boy at the left is wearing clothes made of scraps from the battlefields. They have just received winter clothing, food and condensed milk for the baby. Similar work is being done for Russian refugees driven

Through its Health Service the American Red Cross has begun a nation wide concentrated effort in co-operation with established organizations to reduce greatly the amount of preventable disease and physical defects found among the country's 106,000,000 population. Education is its most powerful Special attention is devoted to children, and this picture shows a typical Red Cross welfare clinic where little ones are treated and mothers instructed in the proper care of them.

THE AMERICAN RED CROSS IN PEACE TIME Aiding Poland

But for the work of American Red Cross agents in all regions of Poinna during the last tweeve months, hundreds of thousands of people in that tragic country today would be under the sod, victims of hunger, disease and exposure. The job in Poland is one of tremendous proportions and cannot be abandoned for names months to come. Here is a typical scene: A Red Cross worker "at the throttle" of a soup kitchen where bundreds of undernourished women and children are fed dally,

Autos Collide.

An auto accident, though not prov ng a serious one, took place near the overhead railroad bridge on Main street, on Saturday evening, just be-fore dark. Robert Coy, with his sister, Mrs. Abbie Woodward, and Mr. and Mrs. D. L. Whitmarsh as their guests, were turning out of Pleasant onto Main street just as an auto driven by Chester Fuller, containing his wife and little son, came down from the bridge. The high board fence at the avoid coming in contact with the other auto rules was about to cross Main street at right angles, to gain their right hand side of the street. Owing to the slow speed of both cars, none of the passengers were injured. The Fuller car, which is owned by the brother of the driver, Charles Fuller, had a damaged wheel and broken radlator, and the Coy car had a broken wheel, and twisted mudguard and the town, no matter if it did require running board, and a few minor damages. Mr. Coy claimed to have ample insurance. The Fuller auto was not nsured against accident. Mr. Fuller, who had an operator's license, is a careful driver, as well as Mr. Coy. No special blame could be attached to

either driver, the corner being known o many auto drivers as a rather dangerous one. Mr. Fuller made his own repairs and notified Mr. Coy he was prepared to stand the expense of re pairs on his auto, as it is understood that the Fuller car, being on the main street, should be the one to stop, to avoid a collision with any auto coming from a side street.

An Excusable Accident.

An accident, which might easily be termed "inexcusable," as it happened in daylight, with no circumstances to be pleaded, happened at the Center, on Tuesday late afternoon, little Marion Starr being knocked down by an auto operated by Duncan Rice, at the cor-ner of Main and Park streets. The child was dragged or rolled under the car, in such a manner as to injure her car, in such a manner as to injure her thigh and bruise her body, only a thick coat saving her from worse in-

juries. She is about eleven years of Miss Lydia Waite concluded her duties as stenographer at the office of the Nashua River Paper Co. last week and Saturday, and will spend this week and on part of next making due arrange-rules. Special Town Meeting.

Although the outcome of the special town meeting held on last week Frilay evening was perhaps as much of surprise to many citizens as the former meeting held in August, no one can complain that it lacked in interest or numbers. At the time of the reading of the warrant by Town Clerk Kemp at 7.30 there were about three side of the approach to the railroad hundred present, and later the number bridge obstructed Mr. Fuller's view of Pleasant street, and he was unable to nearly five hundred people, fifty of whom, or threabouts, being women. car, which according to the prescribed Later, the town hall was filled to its capacity, with standing room only.
Those who have attended the regular town meetings from year to year and noted the decrease in attendance and utter lack of enthusiasm of olden times, regard this liftle contention over the matter of the repairs of the covered bridge, as nothing short of providential to the best interests of some "shaking up" to awake some of he voters.

Acting under article one, Harry W. Hutchinson was chosen to serve moderator, an office which he filled with commendable efficiency. Voted to use the check list.

Article two was called for, on mo on of Thomas Drummey, seconded by Rainsford Deware, the motion beu as follows:

Move to rescind and annul a vote of the town meeting of August 31, 1920, which vote purported (1) to authorize repairs on the covered bridge at East Pepperell, (2) to authorize the town terasurer to appropriate \$17,000 for uch repairs to be raised by bond is sues, (3) to authorize the road suryor and selectmen to arrange for such repairs.

Move to repudiate any contracts purporting to be made under said yote of August 31, 1920, by said road surveyor and selectmen and to forbid said road surveyor or selectmen or any other officials of the town of Pepperell to do any acts or make any payments in furtherance of such contracts.

This motion was ably presented by Mr. Drummey and further talk for the motion was also made by Rainsford Deware and others. Some "hard-pan" facts were stated, and a few charges made which could hardly be refuted. But from the searcity of speakers those in favor of the motion seemed lacking. Those participating in the discuson were C. H. Miller, J. G. Willey, Frank W. Fieming, Grant M. Palmer,

Addison Woodward and Warren Blood. The town counsel, Lawyer Qua, of Lowell, was present, and was called upon frequently for decisions and ad-Certain valuable information vice. was thus brought out, as to the legality of a special town meeting being

The discussion continued until a vote was called for, the check list be ng used. The ote in total was 264, with 90 for the motion and 174 against

Under article 2, Lawyer Qua then read the following motion, with due explanation of the same, in advance of any discussion.

The motion was made by C. H. Miller and seconded by J. G. Willey. Voted, that whereas at a special town meeting held on the 31st of August, 1920, the following vote was

Voted, on motion of Grant M. Palmer, that the town treasurer be authorzed under the instructions of the selectmen to appropriate seventeen thousand dollars (\$17,000) for necessary repairs to the covered bridge, to he raised by four bonds, one of five thousand dollars (\$5,000) to be paid in 1921, four thousand dollars (\$4,000) 1922, four thousand (\$4,000) in 1923 and four thousand (\$4,000) in 1924, and that the matter be left in

the hands of the road surveyor and selectmen. Therefore, so much of said vote as authorized the treasurer, under instructions of the selectmen, to appropriate seventeen \$17,000) for necessary repairs to the covered bridge, to be raised by four bonds for the respective amounts, and due at the respective times stated in said vote, be and the same is hereby

rescinded. Voted in favor of the motion, the own clerk being instructed to cast one vote.

After explanation by Lawyer Qua the following motion was made by C. H. Miller under article 3: Voted, that the town begin the work

of constructing a new bridge of concrete to replace the old covered bridge over Nashua river on Groton street at East Pepperell by the erection of the necessary foundations, abutment and piers, and that the matter be left in the hands of the selectmen and highvay surveyor as a special committee

As in the former instance, the vote

was made by J. Gardiner Willey: Voted, that the contract made and with Ernest Baker, who has been in pany then formed, for years, with the September 2, 1920, and signed in be-

haif of the town by Jacob G. Willey, Charles H. Miller and Alta A, Shat-tuck, selectmen, and Dennis O'Brien. It is a matter worthy of highway surveyor, acting as a special committee, said contract providing for the construction of new abutments and piers for a new bridge to replace the old covered bridge, so called, over Nashua river at East Peppele and the same is hereby rati ed and nfirmed.

Voted in favor of the motion and one vote was cast by town clerk. Under article 3 motion was mad C. H. Miller, seconded by P. F. Sulli-

Voted, first-That, in order to provide pecessary funds for the construc-tion of foundations, abutments and ders for the new concrete bridge over Nashua river on Groton street at East Pepperell, as provided for in votes reviously passed at this meeting, the town treasurer be, and he hereby is iuthorized to borrow, for and in be half of the town, from any bank, firm corporation or individual, the sum of thirteen thousand five hundred dollars (\$13,500), and that the note or bonds of the town shall be issued for said sum.

Second-That the said sum borrowed under authority of this with interest, shall be paid in three annual payments, the first payment of five thousand five hundred dollars (\$5,500 to be made in one year from the date of the security given, and the remaining payments of four thousand dollars (\$4,000) each to be made on the same day of the same month in each succeeding year until the full amount of thirteen thousand five hundred dollars (\$13,500), with interest, is paid.

Third-That said sum of thirteen thousand five hundred dollars (\$13 500) be, and the same hereby is, appropriated for the purpose of constructing foundations, abutments and piers, for the new concrete bridge to replace the old covered bridge Nashua river on Groton street at East Pepperell,

This motion called forth considerable talk and prolonged the already engthy session. The check list was called for, and the vote of 98, was 94 in favor of the motion, and only

A further motion was made also under article 3, by J. G. Willey, as

Voted, that the sum of thirty-five hundred dollars (\$3,500) be appropriated to defray the expenses of such re pairs to the covered bridge over Nashua river on Groton street at East Pepperell, as are necessary to render the bridge safe and convenient for public travel until such time as a new con-crete bridge to take its place shall have been constructed, and that the matter of making such repairs be left in the hands of the selectmen and road surveyor, as a special committee to act in behalf of the town.

Vote was given in favor, the town clerk being so instructed, to cast one, ballot.

conclusion it might be stated that article 4, relating to action or repairs on Main street bridge, received scant attention, being passed over. As opposed to the short session required at the former special town

meeting, this meeting was prolonged until near midnight before the call came for adjournment The citizens may feel they have done their whole duty by the town, but practically the matter stands about as before the meeting, when it comes to reckoning on an increase in taxatio

for the next three years or longer. In mentioning the various speaker of the evening we have omitted to state that the counsel for Mr. Fleming made several statements, and also the Boston lawyer, who was here at the citizens' meeting, last week.
