Unitarian Notes.

Last Sunday was children's day at the Unitarian church, the members of the church school uniting with the congregation in the morning service of worship. There was a special program, which included a well rendered anthem by the young people's chorus and a solo, most appropriate to the day and finely sung by the leader of the choir, Mrs. Hager. It was a pleasure to hear not only the younger members, but also the older ones recite poems and prose selections appropriate to the season. The minister's sermon was especially for the children. He took for his subject "The three wise monkeys of Nikko," and presented the lessons they had to teach in a way that held the closest attention of old and young. The floral decorations were most attractive, consisting mainly of roses. They were arranged by Mrs. John Hardy, whose artistic taste in decorating the pulpit platform always elicits praise from the congreways elicits praise from the congre-

CONGRESSMEN FAVOR FILIPINO **INDEPENDENCE** 

Washington .- "The appointed hour is here: let the Philippines be free.' This was the keynote of a speech by Congressman Edward J. King of Illinois, (Republican) in which he reviewed the American occupation of the is-

Congressman Ed-time. He declared that the United ward J. King of Illinois. States was honor bound to grant in-

dependence without further delay. Congressman King is one of an increasing number of Republicans in the House who are urging quick action on Philippine independence. Mr. King is the author of a bill which provides that within one year the Philippine government, under presidential proclamation, may assemble a convention and frame a constitution.

After the constitution is ratified by the Filipino people the President may recognize the Philippine islands as "a separate and self-governing nation."
The transfer of authority is to be completed within one year. Provision is made for safeguarding American investments in the Philippines and for the providing of coaling stations and submarine bases in the Islands by the United States.

Word from the Philippines is that the people expect early independence and will be sorely disappointed if they do not get it.

"No nation has the right," said Congressman King "to hold another people in peonage, even though it may be argued by the professoriate that the condition is simply one of 'tutelage.'

"A little more observance of the golden rule in national and international affairs would soon dispel that desire for exploitation, the flercest foe of freedom in the world today. "When we went to the Philippines

we declared before the whole world that we were not actuated by any selfish desire of conquest or territorial aggrandizement, but solely by humanitarian impulses.' Congressman King called attention

Raseball,

The Groton A. A. defeated the Townsend A.-A. Sunday afternoon on Lawrence field in a tast, well-played game by the score of 4 to 0. The Groton boys played a fast and sure game and looked fee percent better than last Sunday. Smith, a big, right-hander, with plenty of smoke, was in the box for Groton and had the Townsend boys completely at his mercy, only three hits being made off his delivery and ten going out by th strike-out route. Woodsen led in batting with three healthy wallops and three stolen bases out of three times up. This lad is certainly combing that old ball. Boynton was back again behind the bat and gave his pitcher faultless support, while the entire Groton team was on its toes, and showed the fans that we have again hit the winning stride and will lift a few scalps before the season ends.

Townsend played a steady game, the work of Barros Cohb, Keefe and

Children's day was observed at the West Groton Union church and was certainly a great treat and success, and the superintendent and teachers must feel amply repaid for their arduous labors. If applause was permissible that little church would certainly have shaken on its foundation as item after item was so well rendered. The general expression was they all did well. It was a pretty sight to see the children lined up on either side of the society.

Historic Weather Vane.

The Dutch burghers who followed Henry Hudson from Netherlands to New Amsterdam brought their weathercocks and set them up on the steeples and towers that are seen in the quaint old pictures of old New York. One of these old vanes is probably the oldest thing in New York at the present time. It is the original gilded weathercock of the old Dutch Stadt Huys, or city hall, now in the possession of the St. Nicholas society. The hall, first used as a tavern, was erected in 1642 by Director Kieft. In 1699 it was sold by the city to a Mr. Rodman. The weather vane on the structure came into the possession of Mrs. Elizabeth Mackie. She gave it to

agree in stating that he was a wealthy king, but some call him king of Lydia, in Asia Minor, while others king of Corinth in Greece. It was related that he divulged the secrets intrusted to him by Zeus. and was punished in the lower world by being inflicted with a raging thirst, and at the same time placed in the midst of a lake, the waters of which always receded from his as soon as he attempted to drink. From this tradi-9, it tion the English language has borrowed the verb to tantalize, that is, to hold out hopes or prospects that cannot be realized.

### Plaster Easily Mended.

If plaster on the walls shows cracks and breaks it is not difficult to mend this yourself. Get a little plaster of paris from the drug store. Mix this with water to make a smooth paste and then plaster the cracks, smoothing off the surface with a perfectly smooth board for a lathe. When this is perfectly dry you can supply a cont of calcimine or one of the patented wall paints and the effect should be all that you desire. It is very much better to have all shelves well painted with two coats of white paint and a finishing coat of enamel than to leave the boards in natural condition. If they are painted they may be washed off easily, whereas if they are not painted easily, whereas if they are not painted they become discolored and soiled and funeral of Mrs. Herbert Lawrence in Shirley last Wednesday afternoon. cannot be restored.

Serbian Melodies Solemn.

The Serbian melodies are solemn and impressive, and have a strong affinity with their church music. The Hungarian songs, on the other hand, show vitality and impetuosity to an extraordinary degree. They are mostly in two-four time, but both the rhythms and the time change continually, and the music is full of pauses at effective mements and of modulations into unexpected keys, which correspond to constant changes in the sentiment of the songs, from deep sorrow to wild hilarity of satire. The "Hungarian Melodies," by Francis Korbay, contain very fine examples of such music, and the accompaniments of the songs in this collection are beautifully and thoroughly adapted to the melodies.

repair in their thousands to the tops of the highest mountains, where they erect light bamboo structures or huts, the roofs of which are protected with matting to keep out the wind and rain. There the parents go to sit and ent and talk, while their children play about and fly multicolored kites, Some times there are as many as thirty thousand kites of every conceivable shape, style, size and color flying from a mountain less than a square mile in area. The spectacle is extremely fascinating, and the kites appear like so many graceful birds or winged griffins darting hither and thither among the

### Camp Devens News,

Information relative to the citizens' military training camp at Camp Devens in August was given members of the Rotary club. Fitchburg, at their meeting in the Hotel Raymond on Tuesday by Col Gerhardt, acting Major Ralph Drury and Capt. Neues. Much interest was manifested by the Rotarians, not alone by their applause but also by the numerous questions they asked the officers. It was reported by the officers that all expenses for the training at the camp are paid for by the government uniforms are furnished and there will be free food and medical attendance. In addition to the military training, which will be obtained, the campers will have vast opportunity for athletic recreation and the usual attractions of camp life. Drills will be in infantry tactices, including rithe and revolver practice. Capt. Neues was a classmate of Leon A. Drury, president of the club, at Brown university.

A recruiting party is soon to leave Camp Devens on a tour of some of the principal cities of New England in the interests of the citizens' military training camp to be held for one month, beginning August 1. In New York state, where a similar camp is to be held for young men at Plattsburg, the response to appeals for recruits has been considerable, but in New England the interest has not been so marked. Army funds for the coming fiscal

Army funds for the coming tiscal year have been considerably restricted, with the result that money appropriated for the pay of civilian employees of the camp is considerably less than previous years. Several civilians who have been connected with the quarter-master's office for over two years were discharged recently, while the salaries of the remaining employees have been adjusted to pre-war levels. One of the interesting features of the lack of funds is that the activities of U. S. A. Q. M. C. engine No. 1 will be discontinued July 1. This switching engine, the only one of its kind in the army, was originally used in the construction of the Panama canal and has been used at camp singe the early days of construction in 1917.

Union summer services begin Sunday, July 10. The service will be held at St. Andrew's church. On Sunday the preacher will deal with a subject appropriate to the eve of a great national holiday. He will attempt to show that the traditions of the several races that have tributed to the making of this country tributed to the making of this country are a natural factor and a treasure that ought to be preserved and that they enrich American life rather than threaten the welfare of the country. He will point out wherein is the real danger of "hyphenism" of any variety, which is invariably a disease spread by the ambitious and selfish politician.

The army bill, which has been considerably delayed in congress, is expected to pass this week. It carries with it the order that the army be reduced to 150,000 before October 1. This means discharging 69,000 men before that time at the rate of 23,000 per month. It is expected that over 1000 of these will be from the personnel of Camp Devens.

Flower Sunday.

The Unitarian hurch school observed children's day or Flower Sunday last Sunday, in the form of a school commencement, "the most important of the season," to use the words of a speaker at its close. The program showed the work of the school. There was a recitation of some of the bible work that has been done in which every pupil took part, and special parts were given by Cleo Baker, Ida Sherlock, Vera Hodgdon, Helen Authier, Rachel Turner and Barbara Fletcher. Houghton Priest led in a recitation of a bible selection. The missionary work of the school was shown in a reading of a report from Near East Relief work by Marjorie Fletcher.

The singing by the children was greatly enjoyed, a part of the selections being the songs which have been a regular part of school work—the little girls gave "Heavenly shepherd," and the boys "Praise Him," and the whole school gave "Would you find the way" and "Waiting to grow." There were also several hymns sung, which were illustrative of the missionary or biblical work of the school. A plano solo was finely rendered by Rachel Turner. Miss Marion Dwinell was accompanist for the singing.

Recitations were given by Hough-

The speakers paid fine tribute to Mrs. Barker, the superintendent, for the great work she had done for the school. She has done much for the school outside of the regular sessions. She has conducted a club among the boys and girls in which the lessons of the church school have had a quiet but sure influence. The spirit of the Unitarian campaign has shown itself in the worship and service of the in the worship and service of the school.

The lecturer said in part as follows: Religion and medicine are questions of vital import to all mankind. They have been so regarded from the earliest periods of human history and the search for a more satisfying religion and a more successful method of healing disease has gone on continually.

Today there are hundreds of religious denominations and well night countless professions of faith, all of which are constantly changing with the progress of human experience. On the other hand the various theories as to the cause and cure of disease, advanced by scores of medical schools, are changing so rapidly it is exceedingly difficult to keep pace with them. Every change is deemed progress by the advocates of material methods of healing, and the person who hesitates to accept any new theory advanced is constantly changing with the progress of human experience. On the other hand the various theories as to the cause and cure of disease, advanced by scores of medical schools, are changing so rapidly it is exceedingly difficult to keep pace with them. Every change is deemed progress by the advocates of material methods of healing, and the person who hesitates to accept any new theory advanced is considered behind the times. It can be seriously questioned, however, whether the theories of today are in advance of those of yesterday, if they are to be judged by results accomplished.

The experience of those who have

are to be judged by results accomplished.

The experience of those who have found healing in Christian Science proves that Truth is the remedy for both sickness and sin. Humanity seems to have lost sight of one very important fact which was demonstrated in the beginning of the Christian era, namely, that religion and true medicine are from the same source and cannot be separated, either in theory or practice. It is the prevailing opinion that there can be no connection between religion and medicine because the former has to do with Spirit and spiritual laws, while the latter is altogother material. This is true of medicine as generaly defined and practiced, but it should be understood that medicine means a way of healing and and practiced, but it should be under-stood that medicine means a way of healing, and has a higher significa-tion than that usually attached to it by material systems. It is a fact so well established it cannot be ques-tioned that the most effectual system ever brought to human recognition and Christiamity as it was taught and demonstrated by its Founder, Jesus of Nazareth, are one and identical. When Nazareth, are one and identical. When the Christianly scientific method of healni sickness and sin is understood, the oneness of religion and medicine will be acknowledged by all.

Mental Causation

If one gain the victory over sin by making good real in thought and deed, and this can be proved in the daily experience of anyone, he can overcome sickness in the same manner. Sin is an error of thought in the beginning and so it is with sickness. Even from a medical point of view, based wholly on material hypotheses, thinking and talking about disease and suffering is never helpful. No good can possibly result from this practice and it is to be condemned. Most persons admit that thought affects the body somewhat, but they question whether the belief in sickness and the fear of it could produce a sick body. If the effect of thought on the body is accepted as an established fact, where can one draw the line and say, "Thus far and no farther?" Just how much is it possible to think and talk about sickness and experience no bad results? Since there is no satisfactory answer to the question, would it not be well to be on the safe side and eliminate all thought of disease and inharmony?

Thinking makes a man what he is. His present mental condition is hercely

emininte all thought of disease and inharmony?

Thinking makes a man what he is. His present mental condition is largely the result of the thoughts he has entertained in the past. His morals too are the outgrowth of his thinking. Some day he will realize that his thouhts have had a greater effect on his physical condition than he supposed, and then he will understand why he should give more attention to the trend of his thoughts and less consideration to what he has been taught to believe are the laws of health. The persistent effort to eradicate the thought of sickness will do for him far more than has been accomplished by material methods of healing.

The Prayer of Faith

The Christianly scientific method of

healing.

The Prayer of Faith

The Christianly scientific method of treating disease and sin meets the human need today as surely as it healed the sick and reformed the sining in the first century of the Christian cra. The apostle James left a word of instruction which was intended of all men in all ages and not merely for those who lived in his day. In the fifth chapter of his epistle we read: "Is any sick among you? In the fifth chapter of his epistle we read: "Is any sick among you? It him call for the elders of the church: and let them pray over him, anointing him with oil in the name of the Lord: and the prayer of faith shall save the sick, and the Lord shall raise him up; and if he have committed sins they shall be forgiven him."

No distinction is made between types or forms of disease. The method of practice here outlined will suffice in one case as well as another. Jesus did not teach that some diseases are curable and others incurable; on the contrary he healed all manner of physical and moral infirmities and taught his followers to do likewise.

A Touch of Vernicol—and Your Furniture Is New Again

HERE is many an old piece of furniture about most houses that is dingy and battered; that doesn't match the prevailing tone of the room, that is still useful, but far from ornamental. It's a pity that someone doesn't bring out the good points of such pieces and make them really worth while. It can be done easily.

You can make wonderful changes in a few minutes with Lowe Brothers Vernicol. And it's mighty economical. Vernicol comes in convenient cans of all sizes and in colors to match the usual wood finishes.

Come in and let us show you what you can do with Vernicol.

The Girls' Vacation camp at Vinton pond under the jurisdiction of the Faith and Hope association opens for the season July 1 with a full booking for the season. The office and bungalow for the use of the president, Mrs. Clara Kirby, has been completed during the past year, and a new Ford car has been added to the equipment of the camp, and fifty acres more have been purchased by the association, making now 150 acres owned and used as a summer resort. The main camp with its wide, screened-in verandas, overlooking the pond, the cool dining hall and living-room has accomodations for forty guests with the seven sleeping tents, and there are also two bungalows, a barn and icehouse on the grounds and it forms an ideal spot with boating and bathing privileges for a summer vacation. The class numbered eight and the honors were given to William Hutchinson, who delivered the salutatory, with excellent declamation on "Americanization," the theme of the essay was "American music," a subject which no one in the class would be better qualified to give. The class history by Hester Wait was well worth hearing and Charles Dennen and Alexander Jagiellovicz, in their declamations on "Labor" and "Capital," respectively, showed familarity with their subjects, and the result of good study on points pertaining to these matters.

The march at the opening of the program and the accompaniment for the chorus singing, was played by Mary Butler, and the opening prayer was by Rev. H. P. Taylor. At the close of the exercises, which were not so lengthy as usual, the graduates were pleased to receive from their principal the reward of their labors, their diplomas.

Annual Cradle Roll Reception.

The annual cradle roll reception at the Community church was held on Wednesday afternoon, the rainy weather only keeping the very youngest members at home. There were about thirty-five children, and more than that number of parents and adults who were interested. The scene was the usual pretty one when the little ones meet, and in their shy way form friendships. The vestry was arranged with rugs and games furnished for the amusement of the children as formerly. There was no program of music or recitations except the march as the children who graduated from the cradle roll to the kindergarten department were Russell Parker, John Wood, Helen Bennett, Charlotte Lane, Beverly O'Brien, Jack Bucher, George William Shattuck, Boynton Carter, Shirley Wirch George Mills Shirley

Church Wedding.
On Monday, June 27, at two o'clock, the marriage of Miss Nellie Attridge, daughter of Mr. and Mrs. Philip Attridge of this town, to Joseph Donahue of Ayer, took place at St. Joseph's church, the ceremony being performed by the pastor, Rev. Fr. Cronan. The bride was attended by Miss Alice Donahue of Ayer, sister of the groom, and Arthur Attridge, a brother of the bride, acted as best man. The bride was becomingly gowned in white embroidered canton crepe with hat to match and carried a bouquet of bride roses. The bridesmaid was dressed broidered canton crepe with hat to match and carried a bouquet of bride roses. The bridesmaid was dressed in nile green organdle, with hat to match, and she carried sweet peas.

Guests were present from Ayer and many from this town, and a brother of the bride, Wilfred Attridge, came from New York to be present. Immediately following the ceremony an informal reception was held at the home of the bride on Mill street.

Mr. and Mrs. Donahue left soon after for a wedding trip to Montreal and Quebec, with a stop-over at the White mountains.

Miss Attridge was born here in Pepperell and has a wide circle of friends. The numerous gifts of valuable articles attested to her popularity. She has been one of the operators at the local telephone exchange for about two years, and has acted as assistant at the East Pepperell postofice in the past.

at the East Pepperell postoffice in the past.

The groom is an ex-service man, having been with the 76th division, and after some time at Camp Devens, was overseas a year. He has a position at present as night clerk for the Boston & Maine railroad at Ayer.

On their return from their wedding trip Mr. and Mrs. Donahue will reside in town in a tenement on Cottage street, already fitted up for them.

Recital of Elecution Class. On Wednesday evening Mrs. Irene Tarbell Attridge held the Mrs. annual recital of the pupils in electron who had been under her instruction, with very satisfactory results both to the ones most interested and the guests invited to become the audience. Not-

invited to become the audience. Notwithstanding the rainy evening a very
good number were, present and the
children who, have shown a remarkably good amount of interest throughout their instruction, were well supported on this occasion by parents
and relatives.

The entertainment did credit to all
and the progress of the young pupils
was marked.

The large rooms at the home of
Mrs. Attridge were filled and the alcoved music room afforded a fine setting for the young entertainers. Her
pupils in elocution were assisted in
the program by some young musicians
from the Nashua School of Music, residing in this place. The program was
as follows:

choice was for "When the Ford family take a ride," and the hearty response of her audience must have assured Mrs. Attridge that every point was thoroughly appreciated. One of the audience remarked at the conclusion of the evening, "I haven't laughed so much in years," and a guest from out of town pronounced the whole program superior to many she had attended in cities.

No prompting was required and the children were natural and pleasing in all their recitations. It is probable that if the interest now manifested by

that if the interest now manifested by the pupils continues, it will be necesthe pupils continues, it will be necessary another year to hold the recital in some public place, which will give the public generally a chance to participate in the pleasure of those who attended on Wednesday evening.

HOLLIS, N. H.

News Items. Robinson Crusoc, one of Hollis' oldest residents, narrowly escaped death last Saturday, when he fell from the scaffold in S. Fred Woods' barn when pitching down hay. He struck the barn thoor with such force he was rendered unconscious and there was fear of internal injuries, but on Monday he was taken to St. Joseph's hospital and an X-ray examination showed no bones broken and no serious injury, so that in time it is expected he will, make a good recovery and come home all right.

The last regular meeting of the Robinson Crusoc, one of Hollis' old-

The last regular meeting of the Woman's club for the season was held with Mrs. Willis C. Hardy Wednesday afternoon. This was to have been a lawn party, but the very welcome rain made it a house party. Mrs. Remiek of Concord, retiring president of the New Hampshire State Federations of Women's clubs, was present and spoke New Hampshire State Federations of Women's clubs, was present and spoke most interestingly of the work of the many committees connected with the federation, and made some good suggestions for the Hollis club to follow out. An interesting discussion followed her address. Refreshments were served by the hostess, assisted by Miss Eaton and Mrs. Flora C. Hardy. Before the meeting adjourned Mrs. Flora C. Hardy was elected on the board of directors. The annual outing of the club will be held at Canoble lake July 27.
