The "Six" That Is Out-selling All Others

Outselling them, because it outvalues them. Not merely charging less, but giving more. An inventory of features, inside and out, proves it. A demonstration settles the question beyond dispute. A seven-passenger "Six"—not a five—or a six-passenger. So comfortable that mind and body pronounce it perfect. So light that it skims the road as the swallow skims the air. Weight so well distributed that it sticks to the roadway as though it were a railway. So free from friction that vibration is reduced to the vanishing point. So powerful that no condition it meets can daunt it. Nothing left to be desired—Size E, beauty, roadability, and still—a lower price. Judge it, first, by its own superb steadiness, smoothness and power. Then, by comparison with cars costing more.

Upam, had five subjects of unusual interest and presented them in an able way, reflecting much credit upon themselves and upon their instructors.
